

Glidex

Paste

PRODUCT DESCRIPTION

GLIDEX Paste is made from 100% pure silicone oil. GLIDEX Paste, is available in a handy tube with a shoe-polish sponge for direct application. GLIDEX Paste is solvent-free.

TECHNICAL PROPERTIES:

GLIDEX Paste meets the German KTW requirements for use in drinking water installations. GLIDEX Paste is extremely suitable as a lubricant for the assembly of plastic pipes, rubber strips and joints, when drawing cables in tubes and for the moisture insulation of electrical installations. Prevents ageing of rubber parts.

DIRECTIONS FOR USE:

Fittings and pipes should be cleaned for sand, earth and dirt.

Squeeze out a "line" of silicone paste of 1 - 2 cm on the sponge and divide the silicone paste evenly on the materials which are to be assembled. Assembling can be carried out. GLIDEX Paste does not dry up, and therefore later adjustment can easily be carried out.

CAUTION! Make sure the GLIDEX Paste does not get on floors and shoe-soles as it will cause great risk of fall accidents. Do not ever use silicone oils in connection with painting.
