Particular exposure risks

deriving from actual product or combustion

products:

Risk of formation of toxic pyrolysis products.

Special protective equip-

ment for firefighting:

Do not inhale explosion and combustion gases.

Use supplied air breathing apparatus.

Other information:

Fire residues and contaminated extinguishing water must be disposed of in accordance with local authority regulations.

6. Accidental release measures

Person-related precautions: Ensure plentiful ventilation.

In conjunction with water creates slippery surfaces.

Use personal protective equipment.

Environmental protection

rules:

Prevent spreading of spillages (e.g. by containing spills mechanically or with oil barriers).

Must not enter drainage system/surface water/ground water.

Methods for cleaning/

mopping up:

Remove with liquid-binding material (e.g. sand, sawdust, universal binder, diatomite).

The removed material should be disposed of in accordance with regulations.

7. Handling and storage

Guidelines for safe handling: When correctly used, no special precautions are required.

Advice for fire and explosion

protection:

No special precautions are required.

Requirements for storage

areas and containers:

Incorporate caustic-resistant floors.
