Rinse the mouth and drink plenty of water.  
Do not provoke vomiting.  
Advice to medical practitioner: Symptomatic treatment.

#### 5. Firefighting measures

Suitable extinguishing agents: The product itself is not flammable. Rules for firefighting should be adapted for fires in surrounding areas.

Unsuitable extinguishants: Full water jet.

Particular exposure risks

deriving from actual product or combustion

products:

Risk of formation of toxic pyrolysis products.

Special protective equip-

ment for firefighting:

Do not inhale explosion- and fire gasses.

Use supplied air breathing apparatus.

Other information:

Fire residues and contaminated extinguishing water must be disposed of in accordance with local authority regulations.

#### 6. Accidental release measures

Person-related precautions: Particular danger of slipping if the product has ran out/is spilled

Use personal protective equipment.

Environmental protection

rules:

Prevent spreading of spillages (e.g. by containing spills mechanically or with oil barriers).

Must not enter drainage system/surface water/ground water.

Methods for cleaning/

mopping up:

Remove with liquid-binding material (e.g. sand, sawdust, universal binder, diatomite).

The removed material should be disposed of in accordance with regulations.

#### 7. Handling and storage

Guidelines for safe handling: No special precautions when correctly used

Advice for fire and explosion

protection:

No special precautions required.

Requirements for storage

areas and containers:

Store only in original containers.

Incorporate caustic-resistant floors.

Advice for combined storage: Must not be stored together with oxidants

Must not be stored together with acids.

Further information on

storage conditions:

The container must be kept tightly closed.

Protect against frost.
